Bertrand on onthologie:

Next steps, onthologie: input from Milan expected; waiting for that; but he stepped down;

- 1.update website (partly solved)
 - 2.enriching rdf-examples from Meemoo
 - 3.shackle expression for validation (Meemoo could help perhaps) >> validation with the guidelines
- update position of Bertrand is iffy on the website (no assistance there).

Milan could still help although he is not a member of the board. Bertrand will contact him.

David gives update on the LOCwebsite/emails/notes/documents

Zenodoo still the place for final versions of publications

He continues the work and it's very important to do so.
